

Albanifest 2012 Winterthur

The Albanifest is considered to be Europe's largest annual city festival. It is the festival of the associations in Winterthur: every year approx. 100 clubs and companies replenish their coffers with their novel festival booths. There are no limits to the culinary delights on offer and, of course, music has to play a part, too; often live bands in the festival booths make for high spirits. However the most attention is given to the ludicrous rides, which catapult the high-spirited into the air and let all others gaze in amazement.

Come spend a fun evening with international friends on the Albanifest.
